The sales guys said it had a virus also, Liz. I don't know what happened or where it came from. Thanks. I"m faxing you a new set right now. It reflects the changes you and Kevin discussed for the affidavit.

Ginny,

On Friday I came back to my office after our meeting concerning Mass. Complaince, worked on the memo to John Hackett and sent the document to Kevin. I then went to Kevins's office and we sent the document to you. I received a copy of the document that you sent back to me on Saturday and the
system told me that the document (MASSLT-1.doc) contained a WM.CAP A virus.

I wanted to let both of you know so you can check out your systems. Also the document called mass.sam would not let me open it bacuse it said the file
does not have a program associated with it for performing this action. So could you let me know what kind of file it is?

Be sure and let me know if we need to do anything from down here concerning

the pack labels etc.
